

## JEWISH CIVIL LIBERTIES TIMELINE

### THE YEARS FREEDOM DIED

We find it hard to imagine, living in a nation that guarantees our civil rights that all privileges of citizen could one day be taken away on the basis of our religion, race, or beliefs. In Germany, Poland and occupied territories during WWII, there was an at first gradual, and then escalating erasure, total erasure of civil rights for the Jews took place. Once the National Socialists took office, immediately, no place for the Jew was found in Germany. They were no longer citizens, but "unwelcome guests". They were segregated, degraded, taught against, restricted, disenfranchised not only as citizens but as human beings and eventually deported and killed. There were three basic ways this occurred:

### ERASING JEWISH CIVIL RIGHTS

4. They Were Socially Ostracized and made the Pariahs of Europe, as well as the Scapegoats.
5. Laws such as the Nuremberg Laws and other Race Laws were enacted and enforced to erase all Citizenship Rights of the Jews, or even partial-Jews, and their friends, spouses and supporters.
6. Policies on the federal and local level were interpreted broadly from the Laws, to allow almost any cruel and degrading restriction in local communities. This extended even to such mundane restrictions as no pets, hairstyles, clothing rations or travel to Public Parks.

Almost every policy easily fit into the realm of Law, because the Jews were no longer considered citizens, and therefore could not even fight in court, as that privilege had also been erased. The Jews of Europe were dehumanized, abused and killed, not only because of brutal Anti-Semitism, but first and foremost because of the eradication of Jewish Civil Liberties. Our nation needs to learn this very important lesson that in the erosion of Civil Liberties, is the genesis of Genocide.
