

# **PRE-REVOLUTIONARY FRANCE & RUSSIA: COMPARING & CONTRASTING SOCIETIES**

- 1. Brainstorm everything you can remember about the French Revolution.**
- 2. After 3-4 minutes, compare with your seat partner so each of you can add to your own lists.**
- 3. As a class, share what everyone remembers on the white board.**
- 4. Copy two social organization triangles onto a blank sheet of paper.**
- 5. With your seat partner, in the first triangle, using your interactive notebook, fill in the information on the social-economic hierarchy of the old regime in France. List important details of each.**
- 6. With your seat partner, in the second triangle, using your textbook, look for information to fill in a social-economic hierarchy for czarist Russia.**
- 7. After both triangles are filled in, highlight/color the corresponding parts in each triangle. For example, the King and Czar would both be red, and the peasant classes would both be green.**
- 8. Whole class compares pre-revolutionary societies and corrects misconceptions.**
- 9. At the end, create a final draft quality venn diagram comparing and contrasting these two pre-revolutionary societies. The whole class will go over the information together and add to it.**
